Skills

TypeScript • JavaScript • Java • Spring • PHP • Python • React • React Native • Next.js • Express.js • Laravel
MongoDB • AWS • Heroku • Vercel • PL/SQL • Git • REST APIs • Flask • Selenium • Wordpress • PLC
Networking (CISCO) • Delphi • iOS / Android Development • AGILE • SOLID • Firebase • Unit testing • TDD
E2E Testing • CSS • Prisma • PostgreSQL • Tailwind CSS • Vercel • Fastify

Professional Experience

2022 – present Berlin, Germany	**Cloud Developer,** *Resolution GmbH* ""“Atlassian apps that get it done. Talk to customers in their own language. Reduce passwords. Or even have your tickets solved while you’re hiking.” • In charge of developing an app for Jira with integrations in the Atlassian ecosystem and Slack.
2022 – 2022 Berlin, Germany	**Full Stack Engineer,** *Oyle* "Oyle, the night companion app that guides you through the night, discover clubs and see live data with real feedback from other users." • Led the back end in a team of 3 developers. Communicating daily with the product owner and having the role of Scrum Master. • Built a database synchronization service in Java using Spring, Hibernate and ProtoBufs. • Implemented a second general-purpose backend server in Node.js, Express, Prisma and PostgreSQL. • Deployed to Heroku using PM2 for orchestration and creating custom buildpacks.
2021 – 2022 Remote, Germany	**Full Stack Developer,** *Sindi.cat* "Sindi.cat is a community-oriented platform, where users and organizations go first and are not a second-thought. Easily manage and organize your teams with no technical skill required." • Developed a web client in Next.js and a server using Java Spring. • Used shared business logic to create server-client codebase synchronization. • Designed and implemented the underlying API and data modelling. • Integrated cloud services for: Third party authentication (Firebase), image uploading and cloud processing (Amazon Web Services, S3, EC2), and deployment with Vercel and Heroku. • Wrote Unit and E2E Testing and created and deployed CI / CD pipelines.
2020 – 2021 Barcelona, Spain	**Junior Software Developer,** *Cusco* • Developed, designed and maintained frontend e-commerces in WordPress using WooCommerce and Shopify for a variety of clients in the clothing & apparel industry. • Deployed REST API's involving CRM's (Odoo) and online payments (Stripe) using Java Spring and Laravel. • Created and architected database systems in MySQL, PostgreSQL and MongoDB for the aforementioned services.
2019 – 2019 Terrassa, Spain	**Software Engineer Intern,** *Decam-Spain* • Maintained legacy embedded systems and PLC's used in industrial equipment. • Developed and deployed networks (Cisco) and backend systems for industrial equipment. • Built back end services and desktop applications using Java Spring and JavaFX.

Projects

React Typewriter, *Typewriter effect made simple (React Component)*

React Cutout, *Beautiful titles made simple (React Component)*

Education

2022 Berlin, Germany	**Software Engineering Immersive,** *Codeworks*
2020 Barcelona, Spain	**Web Application Development,** *La Salle Gràcia*
2018 Barcelona, Spain	**Microsystems and Networks,** *iFP Innovación en Formación Profesional*
